

Terms of Use

1. About Blockchain Cuties Universe

Blockchain Cuties is a distributed application that runs on Ethereum, EOS, TRON, and NEO networks, using specially-developed smart contracts to enable players to own, transfer, upgrade and gear up unique Cuties and Items (the “Assets”) which can then be visualized on a website or in a mobile application that the user can interact with (the “Site”). The Smart Contracts and the Site are collectively referred to in these Terms as the “App”. Using the App, users can view their Assets and use the Smart Contracts to acquire, trade transfer and alter Assets with other App users. Trade and acquisition are conducted through a descending clock auction.

Before you can use the App, the Smart Contracts, or the Site, you need to agree to Terms of Use provided by Blockchain Cuties Universe and sign them using your Ethereum/EOS/TRON or NEO account.

2. Cuties Generated by the System

We use smart contracts to generate generation 0 Cuties and promo cuties.

On the day of the launch of Blockchain Cuties, we begin generating these Cuties: one Cutie every 15 minutes, and they will be available for purchase. The logic of smart contracts limits the number of generation 0 Cuties that can be generated to 50 000 and promo Cuties to 5 000.

3. What You Need to Use the App

To start using the App, you need to set up one of the following browsers: Google Chrome, Firefox, or Opera. After that, you may install one of the electronic wallets supported by the game.

The App supports the following types of electronic wallets (MetaMask, dapper, Scatter Client, EOS Lynx, MEET.ONE, DAPP, Tronlink, O3), it is also possible to use the built-in game wallet and register using email. All registration and login methods allow you to make purchases (either directly via Coinbase, if you are in the United States, or via other third-party sites).

By using any of the above methods of registration and/or login into the game, you agree to the terms of the current user agreement.

The App will only recognize you as a user and you will only be able to interact with the App if your electronic wallet is connected to and unlocked through your account.

Transactions that take place in the App are managed and confirmed via blockchain. You understand that your public blockchain address will be made publicly visible whenever you engage in a transaction in the App.

4. Third-party Services

We neither own nor control MetaMask, Coinbase, Google Chrome, the Ethereum network, or any other third-party site, product, or service that you might access, visit, or use for the purpose of enabling you to use the various features of the App. We will not be liable for the acts or omissions of any such third parties, nor will we be liable for any damage that you may suffer as a result of your transactions or any other interaction with any such third parties.

5. Commission and Payment

If you purchase, trade or alter Assets in the App, or with or from other users via the App, any financial transactions that you engage in will be conducted solely through the Ethereum network via MetaMask. We will have no insight into or control these payments or transactions, nor we have the ability to reverse any transactions. With that in mind, we will have no liability to you or to any third party for any claims or damages that may arise as a result of any transactions that you engage in via the App or using the Smart Contracts, or any other transactions that you conduct via the Ethereum network or MetaMask.

Ethereum requires the payment of a transaction fee (“Gas Fee”) for every transaction that occurs on the Ethereum network. The Gas Fee funds a network of computers that run the decentralized Ethereum network. This means that you will need to pay the Gas Fee for each transaction that occurs via the App.

In addition to the Gas Fee, each time you utilize a Smart Contract to conduct a transaction with another user via the App, you authorize us to collect a commission of 4% of the total value of that transaction. You acknowledge and agree that the Commission will be transferred directly to us through the Ethereum network as part of your payment. We will not collect a Commission for interactions that do not involve our App Marketplace.

Any and all purchases are final and non-refundable.

You agree to be solely responsible for any applicable taxes imposed on the Assets purchased hereunder. You shall pay any applicable taxes, including sales, use, personal property, value-added, excise, customs fees, import duties or stamp duties or other taxes and duties imposed by governmental agencies of whatever kind and imposed with respect to the transactions.

You acknowledge and accept that we reserve the right, at our own and complete discretion and at any time, to modify or to temporarily or permanently suspend or to eliminate the App or the selling of the Assets. We shall reserve the right to refuse to sell the Assets to you without any explanation, at its sole and absolute discretion.

You must take appropriate actions for keeping the safety of your login and password in the App and shall bear the responsibility for their safety and confidentiality. All actions carried out with the use of your login and password, considered to be executed by you.
